

# 3<sup>B</sup>

# STATEMENT OF CHANGE

After so much research, listening, and learning, you have enough insight to start laying the foundation to move forward. Now you can carefully craft a statement that will help you stay focused in your battle against your big problem. Changing a system is a long road with possibly many distractions, but with this statement of change, you won't lose your way. But remember, also be willing to change and tweak this statement as you learn and understand more.
